Oil Painted Photographs of Hawaiian Scenes

We call them oil paintings because that is what they actually are. They are absolutely unlike the usual colored or tinted photograph. These paintings are so executed that there is no loss of the wonderful brilliancy of color that has made Hawaiian landscape famous the world over.

The Subjects

Include scenes in which are featured the vermillion scarlet of the Ponclana Regia, the Bougainvillea, the Purple and Yellow Showers, the Volcano of Kilauea, etc. Each picture is 13 by 19 inches in size.

These Pictures are now Displayed in our Windows

ITALY WAKENS TO FOOD VALUE OF SWEET POTATOES

Sweet potatoes are the most common of vegetables to be found in Hawaii and it may be that from this very fact the sweet potato is less appreciated here than elsewhere. In Europe, where the food problem is most serious, it is now coming into recognition. Its use is now being urged in Italy and on the subject Consul R. Harvey Carol, Jr., at Venice, Italy, writes to the department of commerce in these words:

"In view of the shortage of cereals in Europe, a writer in an agricultural paper published at Padua urges an extension of the cultivation of the American sweet potato. This potato is properly described as sweet, pleasant, nutritious, capable of being used as a substitute for bread, and its use will tend to diminish the use of sugar. Its cultivation in this district is easy and good crops are obtained."

"Sweet potatoes are used to a limited extent and may sometimes be found in the Venice market. In this district they are grown principally near Rovigo, in the zone of the lower Adige. Adjoining this district certain quantities are grown in the Mantua district, near the mouth of the Po. The vines of the sweet potato plant are used here as forage."

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If Peevish, Feverish and Sick,
Give "California Syrup
of Figs"

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Adv.

EFFECTS OF MOONEY TRIAL REACH TO PETROGRAD

(Associated Press by U. S. Naval Wireless)

PETROGRAD, Russia, April 25.—The police yesterday frustrated the attempt of a small group of ultra-radicals to attack the American embassy here. The demonstration against Americans followed the report that the government of the United States had "killed an American anarchist named Mooney in San Francisco."

John M. Bredson, an asphalt worker, employed in the municipal asphalt plant at Edgewater road and Garrison avenue, the Bronx, was caught in the electric mixer and crushed to death.

ALEWA STREET AND 9TH AVENUE TO BE IMPROVED

After months of begging and beseeching on the part of the residents of the respective districts, two new improvement districts were set on their way by the board of supervisors Tuesday night. Alewa street, from Wylie to Park in Puunui and Ninth avenue, Kaimuku, from Waianae to Diamond Head road, are the two districts and the engineer was requested to prepare the plans and specifications.

The paving on Alewa street is to be constructed of a six-inch concrete base with lava rock curbing and storm drains of concrete. To pay the cost of the preliminary work the board passed a resolution appropriating \$400.

When the matter of paving Ninth avenue came up, Arnold read a long letter from Assistant Engineer Fred Ohrt advising against it because of the excessive cost due to the fact that the cost of installing storm drains and water pipes would equal the cost of the actual improvement of the street. He said the land here is very rocky which would bring the assessment to over \$5 a front foot.

Supervisor Logan was rather incensed over the letter, declaring that the engineer's office had repeatedly tried to block any attempt to improve the streets of Kaimuku. He moved that the resolution establishing Ninth avenue as a frontage improvement district be passed. The motion carried.

It was announced at the meeting that Ninth avenue is the first of several streets in Kaimuku which it is the policy of the board to pave.

Another step towards the widening of Hotel street was taken when a resolution creating, defining and establishing Hotel street between Nuuanu and Bishop as an improvement district was passed. The next step is the final report of the engineer and then bids will be called for.

KAUAI ANTHRAX NOT SPREADING

Vaccination of anthrax infected cattle in the three paddocks of the Princeville Plantation's stock ranch, Hanalei section of Kauai, was due to begin today.

Enough anthrax vaccine to inoculate 2000 head of cattle arrived from the mainland and was shipped by the Inter-Island steamer, Kinau Monday evening. It arrived at Nawiliwili this morning and was at once taken charge of by a deputy territorial veterinarian who rushed it overland to the scene of the epidemic. Dr. Victor A. Nordgaard, territorial veterinarian, is administering the treatment.

Chairman Arthur H. Rice of the board of agriculture and forestry, said this morning that he learned from a man who returned from Kauai today that deaths of cattle from the outbreak to date are 100 head, making 12 additional deaths in the last few days. Cattle are dying at the rate of two to three head a day but the epidemic is being confined to three paddocks of the Princeville ranch where it started.

Rice said today that the bill to appropriate \$25,000 from the contingent fund for the board's use in fighting the epidemic should pass the house today and go to the governor for his signature. It has already passed the senate.

DIVORCE YOURSELF FROM PAIN AND KIDNEY DISORDER

(By Dr. L. C. Babcock)

Simple methods are usually the most effective ones when treating any disorder of the human system. The mere drinking of a cup of hot water each morning, plenty of pure water all day, and a little Anuric (double strength) before every meal has been found the most effective means of overcoming kidney trouble. Death would occur if the kidneys did not work day and night in separating poisons and uric acid from the blood.

The danger signals are backache, depression, aches, pains, heaviness, drowsiness, irritability, headaches, chilliness, rheumatic twinges, swollen joints, gout.

It is such a simple matter to step into your favorite drug store and obtain Anuric, which was first discovered by Dr. Pierce of the Surgical Institute, Buffalo. Every druggist dispenses it.

All people in America and especially those who are past middle age are prone to eat too much meat and in consequence deposit uric acid (uratic salts) in their tissues and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air in order to sweat freely and excrete impurities through the skin. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant need of getting out of bed at night, by carrying off the uric acid poison.—Adv.

MANY PITS GATHERED

BERLIN, Germany.—Collection of the usually wasted fruit-stones in Germany in the past year, it is announced, amounted to 120,000 tons from which 400,000 to 500,000 kilograms (1,100,000 pounds) of oil were extracted and delivered to the margarine factories. The crop of sunflower seeds was a failure and the gathering of beechnuts yielded small results.
